

Hilton Worldwide - Our Commitment

Sustainability is and will continue to be at the core of our business to benefit this generation and those that follow.

Over the next five years we will:

- reduce our energy consumption by 20%
- reduce our CO2 emissions by 20%
- reduce our output of waste by 20%
- reduce our water consumption by 10%

Hilton Australasia Meetings & Events: A Sustainable Choice

At every meeting and event held at any of our hotels across Australia and New Zealand we will offset the carbon emissions generated by the use of our meeting room and the food consumed. We will do this at no additional cost to you.

Our Offsets Support Renewable Energy

We are committed to the advancement of renewable energy as a source of power for our operations, not only to reduce our carbon footprint but to develop a viable commercial infrastructure for powering our buildings.

Together with our partner Climate Friendly Hilton is purchasing Carbon Offsets that support our renewable energy goals.
